LET US BE PART OF YOUR SOLUTION

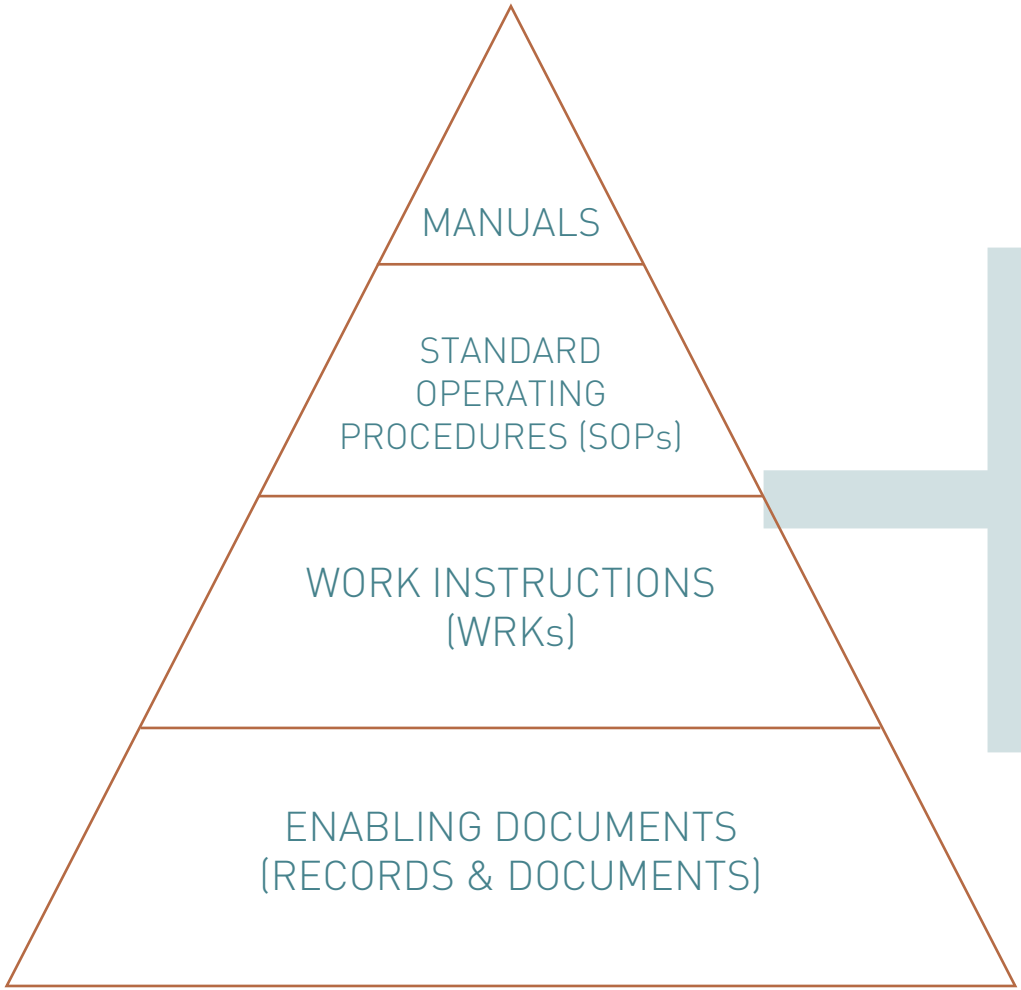
Content strategy & management with deep expertise in XML & DITA

Enabling one to leverage content across multiple devices and publish in a parallel fashion; saving **time** and **money**.

Content Development:

- Technical Authoring
- Technical Drawings: 2D and 3D Illustrations
- Motion graphics & custom 3D model creation
- Video productions, simulations, and animations
- Language Translation Management
- Training Course Development (eLearning, Instructor Led, Hybrid)

Documentation Types & Training Opportunities



- Illustrated Parts Lists & Catalogues
- Product Illustrations & Detailed Breakdowns
- Piping & Instrumentation Diagrams (P&ID or PID)
- Tool, Equipment, & Instrument Manuals (i.e., Instructions For Use – IFU)
- Installation, Operation, User, & Procedural Manuals
- Maintenance & Repair Manuals
- Safety Manuals & Safety Training Materials
- Data Sheets, Spec Sheets, Material Safety Data Sheets (MSDS) & Safety Data Sheets (SDS)
- Style Sheets
- Service Bulletins
- Compliance Guidelines (e.g., HIPAA, OSHA)
- Wiring Diagrams & Schematics
- Technically Rich Marketing Materials
- Good Lay Summaries

TESTIMONIAL

BIOPHARMA COMPANY

"We just wrapped up the greatest trade show we've ever had. I can't tell you how strong we were, and focused. We've acquired 3 new distributorships after putting them through an evaluation process based in great measure on our work in January. This has set the stage for an amazing year ahead, and our work with you has really given us a level of confidence to know that we can handle everything."

CEO of a Medical Device Company

"I would like to thank you for your support and excellent work you and your team have performed so far. You and your team have demonstrated thorough knowledge, excellent communication skills and have put in place a framework that allowed to minimize the ambiguous nature of some of our processes. I truly looking forward to finalizing this project and discuss future engagement."

Vice President, IT for a BioTech Conglomerate

"JANA has proven to be an invaluable partner in helping our company in three different areas, including clinical data management, operational excellence, and enterprise content management (ECM). As a result, we now have a much more complete understanding of our clinical development programs conducted over the years. Operationally we have more consistent project timelines and project reporting as it pertains to our IT project portfolio, not to mention a better understanding of how our project review and approval process should work. Best of all, we now have a robust ECM strategy, a comprehensive understanding of our current technology roadmap and a well thought out future state roadmap as well – not to mention all the deliverables needed to put these into motion, including stakeholder mappings, a risk register, and a program timeline."

Vice President, HR & IT for a BioPharma Company
